Subject:- Liquidated Damages Committee - Norms.

Printers are taken on CBC rate contract who fulfill minimum requirement of printing machines and other equipments, after the approval of Screening as well as Panel Advisory Committee. The tenders are called by CBC under two bid systems. Various printed publicity materials are to be produced by CBC on the basis of the lowest quotations. Printers have to complete the job within the stipulated time as per the specifications laid down in the tender enquiry. Liquidated damages in case of delay, sub-standard workmanship or extra claim due to various changes incurred during the execution are to be decided by the L.D. Committee.

The following norms are to be observed in various cases towards liquidated damages: -

- (1) Delay on the part of the printer up to 25% against specified timings are normally ignored provided publicity value is not affected.

For delay caused by printer in time bound jobs such booklets, folders & kit folders etc. jobs for particular occasions, the liquidated damages are made on the basis of the merit of the case.

A minimum cut towards delay will be Rs. 1,000/- and the cut less than Rs. 500/- will be ignored.

- (2) For delay up to 50% of the specified time limit, the deduction will be @ 1% of total value of the job. For subsequent delay cut will be @1% for every 50% delay in case of printer paper.

The cut for the delayed execution of job is limited to 10% of the total value of the job on printer's paper. Beyond 500% delay may invite written warning/suspension/rejection on the merits of the case in addition to the cut as applicable.

- (3) Timings for each language are accounted from the date of the supply of the complete material for that language and the printer's are expected to take up each language as and when the material is received or proofs approved.

- (4) In case, changes/alterations are made by the deptt. Additional time on the merit of the case is to be allowed.

- (5) When a printer is requested to do a job much earlier than the specified period, the delay occurring due to change of priority in case of other job may be given due consideration.

- (6) Where a printer carries out the changes/improvements at his cost, the cost may be compensated towards deduction for delay, if any, on the merits of the case.

- (7) In case of variation in weight of paper 2.5% variation in paper and 5% variation in card/board is condoned. Beyond permissible limits recovery will be made as under:

- (a) If the printer takes permission in advance about using paper of less Weight /grammage then the cut will be made on actual difference in weight at market rate.
- (b) In case where printer fails to inform in advance, cuts are made at double of the market rate.

[Handwritten signatures and initials at the bottom of the page]

(8) Cuts for non-conspicuous variation in printing quality and binding deficiency of the job will be @ 3% & 2% respectively. The cut will be imposed on the percentage of defective copies and not on the entire lot. The percentage of cut will increase for conspicuous defects on the merits of the case and will be decided by the L.D. Committee and can normally be up to 10%. Nature of defect is more important for deciding whether a job may be rejected.

(9) 5% copies over or under of the specified quantity may be accepted subject to useful utilisation of the copies. However deduction in payment of the bill will be made accordingly.

(14) Cuts for backing out after quoting the rates by the printer during financial year will be made as under
